

## Kindagard® Protects Against Trapped Fingers

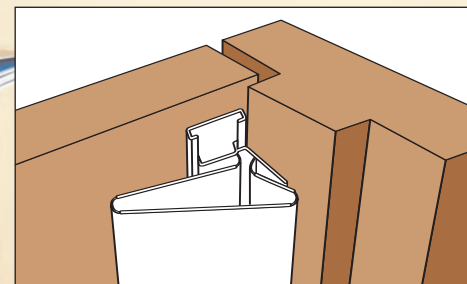

SCHOOLS • NURSERIES • LIBRARIES • SURGERIES • RETAIL OUTLETS • LEISURE CENTRES

If the general public have use of your premises you need to protect everyone from the danger of trapping fingers in doors. Avoid this risk by fitting Kindagard®.

Whilst there is no current legislation, your premises could fall within the scope of the Health, Safety and Welfare Regulations, and you could be deemed negligent if you have not taken reasonable safety precautions.

According to The Royal Society for the Prevention of Accidents (RoSPA) every year there are over 600,000 accident victims who are aged 4 years or under and 30,000 of these are injured as a result of trapping their fingers in doors.

Fitting Kindagard® is a quick, easy, and effective way to protect the public from harm and your from expensive litigation.

At Home, At Work, At Play - Fit a Kindagard Today!

Kindagard® is a door hinge safety system that has been designed to prevent fingers being trapped in the gap between the door and the door frame when the door closes. When fitted, Kindagard® will cover the gap completely. Kindagard® is suitable for domestic or commercial use and will protect those fingers.

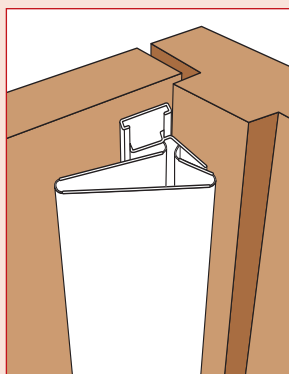

## Avoid the worry that an accident can cause and expensive litigation.

If you run a business you need to protect everyone from the dangers of trapped fingers, particularly in high traffic pedestrian areas. Whilst there is no specific legislation at present, if your premises fall within the scope of the Health, Safety and Welfare Regulations, then you could be deemed negligent if reasonable safety precautions, such as fitting door hinge guards, has not been taken.

Attention to door safety prevents distress, or even disfigurement, from one of the most common accidents.

Don't take the risk when there is an effective, simple, quick and inexpensive solution available.

Fit Kindagard® today!

Ideal for any commercial environment.
